Vienna, May 28.

OUr Advices from *Hungary* are very various and uncertain, according to our last the Malecontents were in great Mistrusts of the Turks, and Count *Teckeley* not at all satisfied with the Conference he had with the Bassa of *Offen*, from whom he had expected an assurance, at least, of being assisted by the Port with Men and Moneys. In the mean time the Imperial Ministers both here and at *Luxemburg*, have daily Consultations as well concerning the Affairs of *Hungary* as those of *Germany*; and as to the latter, it's said, that the Emperor is resolved to do his part in order to the restoring to the Empire the Lands and Places which the French have possessed themselves of, since the Peace of *Nimeguen*.

Francfort, May 31. The French Ambassadors have not yet given their late Reply in *Latine*, as was desired by the Imperial Ambassadors, who still insist on it, as a thing in which the Dignity of the Empire is concern'd. Prince *William* of *Furstemburg* passed through this place yesterday in his way to *Strasburg*. From *Ratisbonne* we have an Account, that Monsieur *Verjus*, the French Envoy, had given in another Memorial to the Dyet, to dispose them to accept of the Conditions proposed by *France*: But that the Emperor had by his Ministers there declared to the States, that he cannot by his Capitulation, consent to dismember the Empire, as he must do, if he agree to the said Conditions.

Cologne, June 5. The 1200 Men which the Circle of *Westphalia* assists this City with, are come into the Countrey of *Bergs*, and will be here to Morrow or the day following, our Magistrates being in the mean time busied to provide Quarters for them. From *Strasburg* they write, That it was reported there, that the French Troops would pass the *Rhine*, upon the Advice they had, that the Imperial Forces were coming down.

Hamburg, June 5. The third instant the King of *Denmark* arrived at *Glucksladt*, and the next day parted again from thence for *Itzehoe*, where it's said he will expect the Elector of *Brandenburg*, with whom, we have told you, his Majesty is to have an Interview. The 9th instant there will be a general Review of the *Lunenburgh* Troops near *Zusingen*. *P. S.* Just now we are informed, that the King of *Denmark* is expected this afternoon at *Alteria*, (about a quarter of a Mile from hence) and that the Burghers had therefore Orders to be in Arms.

Hague, June 9. The States of *Holland* are still Assembled, but, having no matters of any great moment at present before them, they will, it's believed, separate in few days. The States have received a Letter from the King of *Fez* and *Morocco*, which they have ordered to be Translated. There are Letters from *Germany* which tell us, that the French are designing a Camp near *Offenburgh*, to have an Eye upon the Imperial Troops which it's said are drawing towards the *Rhine*.

Brussels, June 9. On Sunday last the Marquis *de Grana* parted from *Ghent* for *Audenard*, intending to take a turn through *Flanders*, and to be back here towards the end of this week. His Excellency has ordered four Regiments of Foot, one of Dragoons and 400 Horse to march to *Luxemburg*, being resolved to put that place into a good posture of defence. The French we hear design to have a Camp near *Metz*, and another on the *Saar*, and are likewise drawing a great many Troops together near *Strasburg*, and on the other side we have an Account that 16000 Imperialists are coming down towards the *Rhine*, to joyn with the Troops of *Suavia* and the other Circles. Yesterday being the King of *Englands* Birth-day, Mr. *Howard* his Majesties Envoy Extraordinary, gave a very noble Entertainment to all the English Gentlemen here.

Paris, June 10. Commissions, as we are informed, are given out for the raising 300 Companies of Foot, and at the same time the Levies of Horse are gone on with, but with a care that they do not hinder those of the Foot. These preparations, it's not doubted, are made here to answer those of the Emperor and the Princes of the Empire. The Doctors of the *Sarbonne* having made some steps, which shew they are dissatisfied with what has been done, with relation to the Registring the Declaration of the Clergy, and the Kings Edict thereupon in their Colledge, the Parliament here has taken notice thereof, and last Friday twelve of the said Doctors were called before the Parliament, and were very sharply reproved; which some look upon as a thing that may have important Consequences. Several Galiotes have been purposely built at *Thoulon* to serve in the designed Expedition against *Argiers*, and we are told they will be ready to sail the 15th of this Month. There is a report that the Turks have imprisoned the French Ambassador, and several Merchants of this Nation at *Constantinople*, which we know not what credit to give to.

Windsor, June 3. His Majesty received very Graciously the following Addresses from *Hertford*, and *Chepping Wycombe*.

To the Kings most Excellent Majesty.

Most Dread Sovereign;

WE *the Mayor, Aldermen, Common Council, Assistants, Freemen, and Commonalty of Your antient Burrough of* Hertford, *being truly sensible of the great Happiness we daily enjoy, and the many Benefits we continually receive from the Gracious Influence of Your Government, do humbly conceive we are all in Duty bound to manifest our Loyalty again to Your Majesty, when we see, to the great grief our hearts, that the restless and continued Malice of some proud and discontented Spirits, shall under the specious Pretences of maintaining the Protestant Religion, preserving your Royal Person, and the Liberty of the Subject, contrive a new Model of Government, to destroy the Church, disband Your Guards, (which are now more than ever necessary) overthrow the Monarchy, and enslave Your Majesty and all Your Loyal Subjects to the Arbitrary Wills of their insulting Government, as was notoriously*
